Red Astrachan.

A Russian Apple, of excellent quality. Flesh white and sprightly, sub-acid. Ripens very early. Tree hardy and productive.

St Lawrence.

Tree vigorous, upright, productive. Flesh white, lightly stained, tender, and vinons. Sept. and Oct.

Fameuse.

A celebrated Canada fruit, which has its name from the snow-white color of its flesh. It is an excellent productive autumn apple, and is especially valuable in Northern latitudes. Flesh remarkably white, tender, and with a slight perfume. Oct. to Nov.

Golden Russet.

Tree vigorous, upright, and productive. Flesh yellowish white, tender, rich, mild sub-acid. Jan. and Apr.

Kentish Fill-Basket.

An immense English fruit, much admired by those who like great size and beauty of appearance. Tree a strong grower and a good bearer. An excellent cooking apple. Oct. to Jan.

Haas.

Tree vigorous and productive. Flesh white, fine grained, mild, sub-acid. Nov. to Mar.

Walbridge.

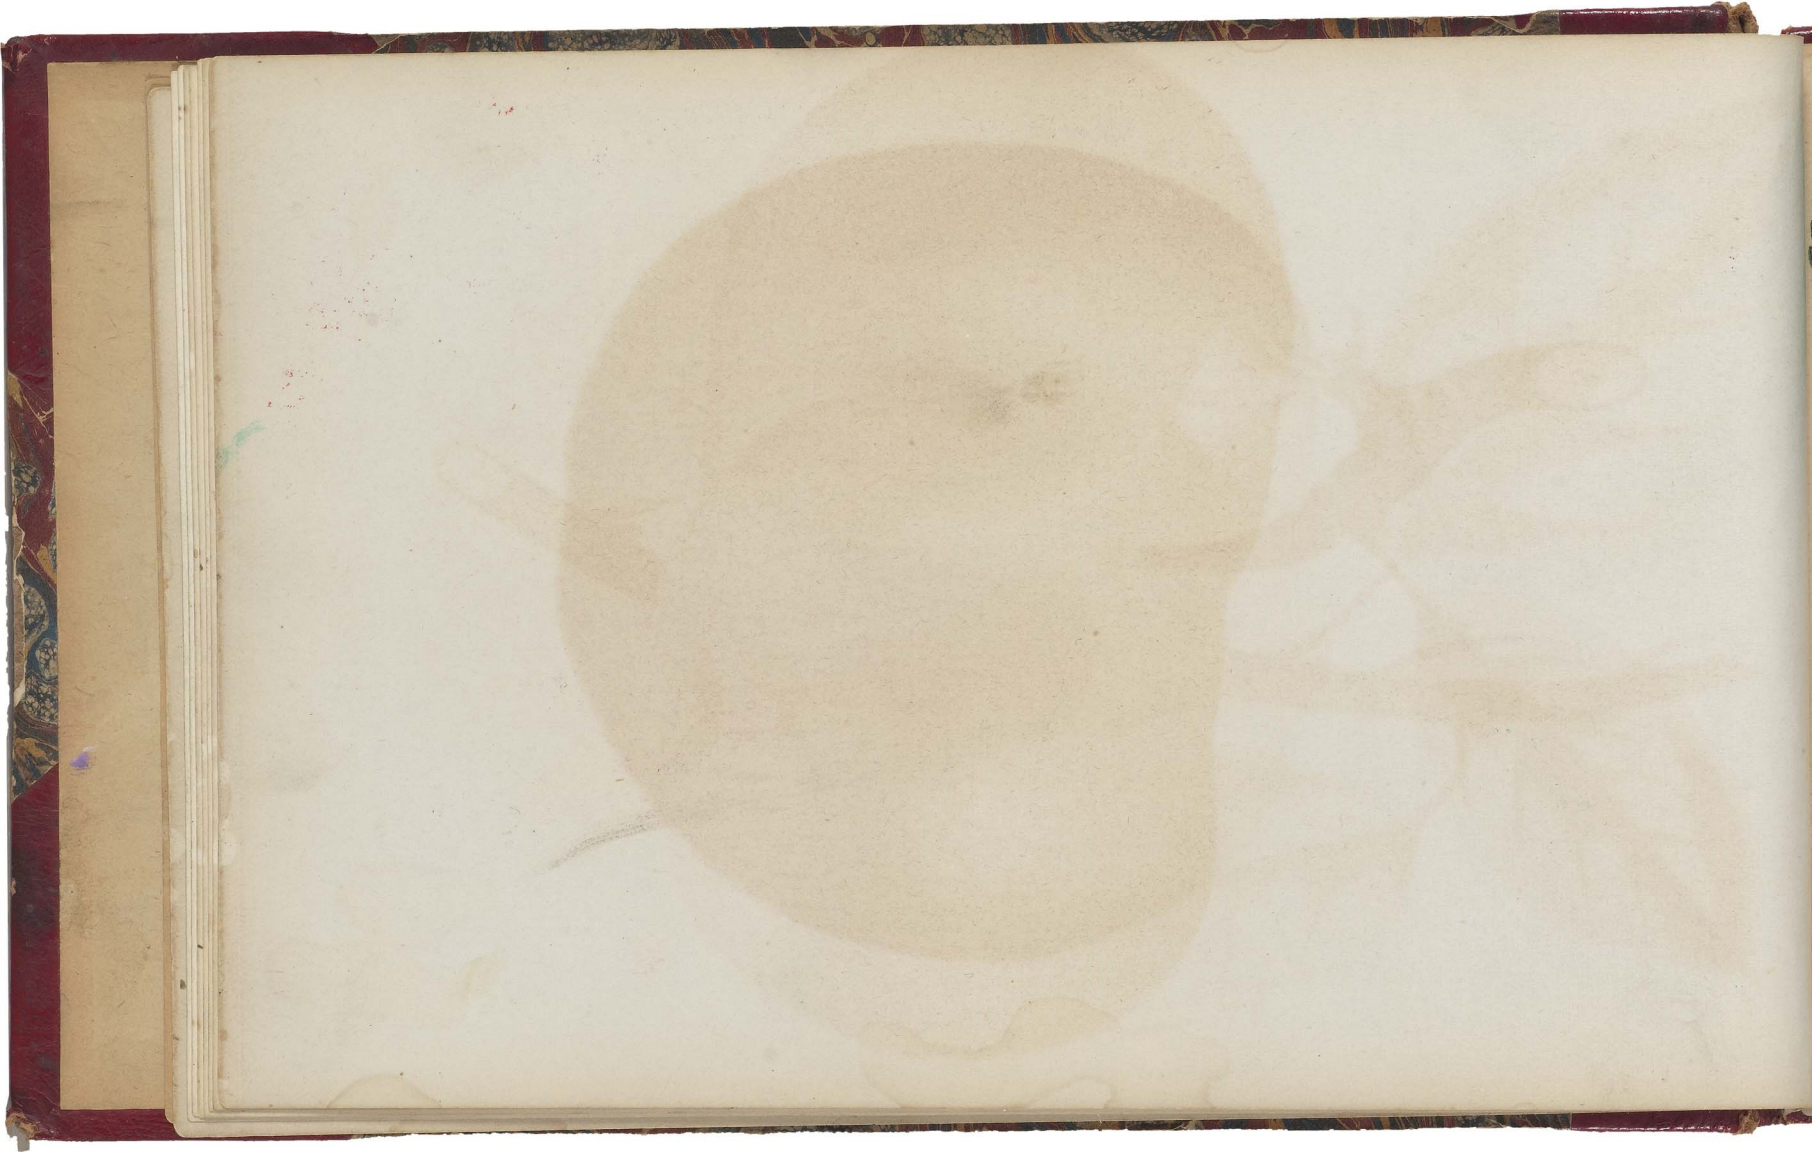
Having been thoroughly tested in Minnesota its great vigor and hardiness, as well as its enormous productiveness, has been abundantly demonstrated. Of good quality and adapted to planting in the North. Mar. to June.

Emperor Alexander.

A native of Russia. Of fine size and appearance. Flesh a yellowish white, crisp and tender. Tree vigorous and adapted to both temperate and very cold climates.

75

AMERICAN



Duchess of Oldenburg.

A well known and highly esteemed hardy variety. It bears young, regularly and abundantly. Fruit of excellent quality; flavor a sprightly sub-acid, and ripens early in the Fall. It is of Russian origin, and succeeds over a large section of country.

AMERICAN

BALDWIN.

The Baldwin stands at the head of all New England Apples. A first-rate fruit in all respects. Tree vigorous; very productive. November to March.

AMERICAN

NORTHERN SPY.

Flesh white and tender; mild, sub-acid, rich and delicious flavor. Tree a strong, upright grower. Fruit in perfection in January. December to June.
